START NOW WITH E-PULSE™.

Having a life that is free from aches and pains is easier than you expected. Now you too can overcome your ailments and be pain free. By using your E-Pulse™ Pro on a regular basis, not only will you feel relief, you will be on the road to a healthier lifestyle.

INTRODUCTION

E-Pulse™ Pro is a 21st Century revolutionary wonder that has the ability to create the feeling of an actual massage. With an unprecedented 6 modes, our E-Pulse™ Pro unit brings relief from a host of ailments. Equipped with two output ports, our unit supports up to four pads at once for maximum relief.

Similar technology has been used by chiropractors, doctors, orthopedists, and physical therapists for the past three plus decades to provide pain relief for an array of needs and ailments. Now you too can experience the ultra-smooth, deep tissue massage sensations of your own lightweight, portable, and durable E-Pulse™ Pro device.
OPERATING INSTRUCTIONS

1) Plug in both sets of wires into the two ports which are located at the bottom of your E-Pulse™ Pro device.

2) Attach two pads by snapping both onto the fasteners attached to the connecting wires.

3) Remove the protective plastic covers from the pads and sprinkle a few drops of water before using. This will prolong the durability and life of your pads.

4) Place pads right on the skin near the desired or affected area of the body. Please read the precautions and FAQ sections in order to safely use the device.

5) Turn on the device by sliding the switch located on the top left to its On position. Your unit is now activated.

6) Increase the intensity of your device to the desired setting and sit back, relax, and enjoy the different pulses and sensations as well as the relief from your tension or pain.

7) The timer is automatically set on your device for 20 minutes. This may be increased in ten-minute increments to a maximum of 60 minutes. To do this, press the (T) button on the front of the device. Your massage unit will shut off automatically after the
allotted time has passed. You can stop your device at any time by tuning it off. Simply slide the On/Off button to its Off position. Upon finishing your session, please rinse the pads with cool water and rest them face down on the plastic pad rest. Doing this will extend the life of your pads by protecting them from dirt particles as well as other types of dust and matter.

8) Get to know your E-Pulse™ Pro by experimenting with all of the 6 therapeutic pulses and modes. When changing modes, the intensity of the pulse or massage will reset itself back to the minimum strength. You can regulate the intensity of your unit by pressing the plus (+) and minus (-) buttons located below the face of the unit. After regular use, you will start to feel the therapeutic relief that is given by the E-Pulse™ Pro.

9) To recharge the lithium battery, simply plug the E-Pulse™ Pro device to a computer or an electric outlet using the USB cable and plug provided.

**MODES**

The *E-Pulse™ Pro* has six (6) modes for you to benefit from and enjoy:

1. **Pushing**
2. **Acupuncture**
3. **Tapping**
4. **Scraping**
5. **Cupping**
6. **Auto Combination**

Each of the 6 modes offers a unique pulse with therapeutic and pleasant sensations which will help you feel relief from aches and pains generated from different ailments of the back, the head, joints, lower and upper
extremities, and illnesses such as Fibromyalgia, Arthritis, Rotator Cuff, Joint Disease, Osteoporosis, Migraine Headaches and Cluster Headaches, TMJ, Chronic Fatigue, and others.

PRECAUTIONS

- Pregnant women and nursing mothers should avoid using this device.
- Never use this device on yourself if you have a pacemaker. Also never place the pads in the region of the heart.
- This device must be avoided by those who are dependent on life support equipment such as respirators or artificial lungs and/or any other related medical apparatus.
- Never touch the inner gel side of the pad while connected to a functioning device.
- Keep this device out of reach from children.

FREQUENTLY ASKED QUESTIONS

How does E-Pulse™ Pro work?

E-Pulse™ Pro uses bio-electric stimulus to massage your
muscles. Your muscles respond to the impulses by contracting and relaxing rhythmically. This massage helps to reduce tension and knots. It can also reduce inflammation and alleviate the pain. With regular use, your E-Pulse™ Pro can help your muscles and joints feel better. The soothing sensations are similar to what you receive when treated by a massage specialist, chiropractor or physical therapist.

**Where can I use my E-Pulse™ Pro pads?**

You can use the E-Pulse™ Pro on almost every muscle and joint area on your body. Do not apply the massage pads near the heart, the pubic region, scarred areas, on the throat or in the mouth. As a general rule, if you have a muscle or joint that hurts, place the pads on or around the area making sure both pads are aligned with the muscles. The best way to relieve your pain is to find the pain points and apply the pads there.

E-Pulse™ Pro is ideal for women to use on their abdominal muscles after giving birth as well as anyone who lives a sedentary lifestyle. The E-Pulse™ Pro may help tone abs, break down cellulite, and tone other areas of the body.

The E-Pulse™ Pro is also beneficial to the elderly as well
as other people who are forced to sit for prolonged periods of time. You can use the device on different muscle groups to maintain muscle tone and prevent stiffness and atrophy. *E-Pulse™ Pro* is also relieves tired, achy, and strained muscles. It is designed to give you relaxation and a deep soothing massage.

**How far up on the back of my neck can I put the massage pads?**

About half-way up the neck is the ideal placement for your massage pads. If you have tension at the base of your head, placing the pads halfway up should help that area. This also helps with headaches.

**I put the massage pads on my shoulders and the massage sensation feels uncomfortable. What should I do?**

You probably have a lot of tension in that area. Most people don’t realize how much muscular tension they have until they get a massage. If the uncomfortable feeling persists for more than a minute or two, move the massage pads over or down a little. Sometimes, an indirect massage is necessary for the really sensitive areas. We also recommend decreasing the intensity of your massage.
Is E-Pulse™ Pro safe to use?

Bio-electric stimulus is perfectly safe for use. Not only is it safe, it is very therapeutic for most people. There are cases however, when people with certain health conditions cannot use this massager. Pregnant women must avoid using this massager. Patients with a pacemaker or life support equipment, such as an artificial heart-lung device(s) and/or respirator-type medical devices must avoid using this massager.

How long do the massage pads last?

With frequent use, the two pair of pads included with the massager should last about 4-6 months. Always make sure to apply a few drops of water on the pads before applying and rinse accordingly after use. Cover the pads with their protective films and place them on the round holder so they don’t dry out.

If you feel an unpleasant or stinging sensation, the pads may be worn out and need replacement. If they look good and have good adhesiveness, check your battery as it may be getting low and a simple charge can help. More massage pads can always be ordered from our website.
How long will the batteries last in the massager?

Generally about 30 to 42 hours of runtime, or more. This kind of technology is not hard on batteries. You can also use the unit with the wall charger or directly from your computer using the USB cable.

Does E-Pulse™ Pro have a warranty?

Yes, E-Pulse™ Pro has a two-year factory warranty. Check our warranty on page 21 for further details or online at www.magicpulsemassage.com.

We advise you to consult your doctor if you have or think you have any of the following conditions before using your E-Pulse™ Pro:

- An acute disease
- Cardiac dysfunction
- Epilepsy
- High blood pressure
- High fever
- An infectious disease
- Any malignancies
- Recent surgery
- Skin problems
REMEMBER TO KEEP YOUR DEVICE AND PADS OUT OF THE REACH OF CHILDREN!

TREATMENT AND RELIEF FOR SCIATICA

1) Plug two sets of wires into both ports of the device.
2) Attach pads to the wires after lightly sprinkling with water.
3) Align the pads to the lower back on both the right and left sides.
4) Attach the two remaining pads on your lower extremities by sticking them both on the lower outer thighs.
5) Regulate the intensity to your comfort and set your timer for maximum results.
6) Favorite modes for treatment of Sciatica are both the Pushing and Acupuncture modes. It is advisable to do this treatment as needed for thirty minutes at a time. Doing so treats the symptoms and pains associated with Sciatica.
NECK PAIN:

Suffering from neck pain? We have the answer! Your E-Pulse™ Pro may soothe and comfort a sore and aching neck.

1) Plug in one wire into the port on either the right or left side of your device.
2) Fasten both pads by snapping them on to the wires.
3) Attach the pads two inches below your neck.
4) Attach the other two pads an inch to both the right and left of the other set.
5) Turn on your device and set your timer for 20 minutes.
6) For maximum benefits and relief, use your massager on a daily basis for twenty minutes at a time.

SHOULDER PAIN AND ROTATOR’S CUFF:

1) Use one set of wires with two pads. After lightly wetting your pads, attach one ½ inch from the top of shoulder on the front side. Attach the remaining pad ½ inch from the top of your shoulder on the back side.
2) Set your device to the Acupuncture mode.
3) Set the desired intensity.
4) Set timer for 20-30 minutes.
5) Remember to moisten the pads and store on pad holder after treatment.
Your *E-Pulse™ Pro* has a plethora of benefits. Regular use provides a healthier lifestyle and will help keep you free from aches and pains. Increased circulation, relaxation, and the release of Serotonin and other endorphins are several of the benefits you can experience from regular use.
MIGRAINE, CLUSTER AND OTHER HEADACHES:

For maximum relief, attach small size pads to the back of head and to the temples.

1) Set mode for either Tapping or Scraping
2) Regulate intensity to the desired level.
3) Set timer for 30 minutes as needed.
4) Upon completion of massage session, detach pads, rinse with water, and place on holder. This keeps the pads clean and ready for the next use.
**TONING ABS AND MUSCLES:**

1) Attach four pads to the leads by fastening them by the snaps.
2) Sprinkle a few drops of water on your pads.
3) Place two pads on alternate sides about one inch above the navel.
4) Place the other two pads two inches below your navel on alternate sides.
5) Set your device to Auto Combination mode.
6) Set your timer to 40 minutes and increase the intensity to the desired strength.
PAIN IN WRISTS, HANDS, AND UPPER EXTREMITIES:

The *E-Pulse™ Pro* is a smart option when it comes to pain in your upper extremities. Thousands of people suffer from pain in the wrists, knuckles, joints, hands, and forearms. The pain often stems from Arthritis, Carpal Tunnel Syndrome, Joint Disease, and other ailments. The *E-Pulse™ Pro* will intensely massage these problematic areas and offer you added relief by increasing the circulation of the affected areas.

WRIST JOINT AND KNUCKLE PAIN:

1) Apply one pad to the underside of the wrist.
2) Apply another pad to the top of the hand right below the knuckles.
3) Set your mode to Acupuncture.
4) Set timer for 30 minutes.
5) If both hands and wrists are affected, repeat the process on the other hand and wrist.
CARPAL TUNNEL SYNDROME AND OTHER JOINT PAIN:

Many people suffer from Carpal Tunnel Syndrome and other related joint pain. Immediate relief is felt when using the E-Pulse™ Pro.

For fast relief and treatment, use your device daily, following these steps:

1) Moisten massage pads with a few drops of water and attach to the fasteners on the output wire.
2) Stick one pad on the inside of the forearm and the other on the area of the elbow.
3) Set the mode to Acupuncture and regulate the desired intensity.
4) Enjoy the treatment and massage for up to 30 minutes.
FOOT MASSAGE USING PUSHING MODE:

*E-Pulse™ Pro* can help to increase the blood flow and circulation of the feet and legs. By sending oxygen through the extremities, there is increased circulation and mobility. The *E-Pulse™ Pro* may help those suffering from Diabetes, Varicose Veins, Planters Fasciitis and other problems. There are two ways to benefit from the Pushing mode. One is by using the pads. Another option is to connect *E-Pulse™ Massage Shoes* to the device.

FOOT MASSAGE USING PADS:

1) Connect both output wires to the two ports on the bottom of the *E-Pulse™ Pro*.
2) Moisten the massage pads with a few drops of water and snap to the fasteners on each wire.
3) Attach one pad to the top of your foot
4) Attach the other pad to the sole of the foot.
5) While in a sitting position, activate the device and set it to the Pushing mode.
6) Regulate to the preferred intensity.
7) Set timer for 30 minutes.
8) REMEMBER to remain seated through the duration of the treatment.

**REFLEXOLOGY WITH MASSAGE SHOES:**

1) Another way to enjoy Reflexology is to use the *E-Pulse™ Pro Massage Shoes* (sold separately) instead of pads.
2) Both Slippers can be fastened to the output wires. The snaps are located on the right inner side of each slipper.
3) After attaching the slippers to the device, in a seated position, slide your feet into our one-size-fits-all slippers and adjust the fitting by tightening or loosening the Velcro straps.
4) Choose Pushing mode
5) Regulate the intensity.
6) Set timer for 30 minutes.
7) REMEMBER to remain seated through the duration of the treatment.
8) Relax and enjoy the sensations as they stimulate and heal the feet and legs.
