INTRODUCTION

e-Pulse® Pro 610 is an advanced neurostimulator that can be used for temporary muscle pain relief, anytime, anywhere. It is the same technology used by healthcare professionals like physical therapists and chiropractors. It offers TENS and EMS programs to relieve pain and improve muscle performance across many parts of the body, such as:

- Neck
- Shoulders
- Arms
- Back
- Waist
- Legs

Anytime, anywhere!

WHAT IS TENS?
Transcutaneous Electrical Nerve Stimulation (TENS) is a type of therapy used to help relieve pain. It works by sending electric pulses to the nerve endings, which block the pain signals sent to the brain.

WHAT IS EMS?
Electrical Muscle Stimulation (EMS) works by eliciting muscle contractions using electric pulses. EMS therapies may help facilitate and improve muscle performance.
WARNINGS

1. Consult your physician before using this product, especially if you are currently receiving medical treatment.
2. Stop using if pain becomes worse.
3. Do not use this device if you have a cardiac pacemaker, implanted defibrillator, or other implanted metallic or electronic device(s). Doing so could cause electric shock, burns, electrical interference, or death.
4. Do not use this device if you are pregnant.
5. Do not use this device on the front side of your neck. This may lead to severe muscle spasms resulting in the closing of your airway, difficulty breathing, or adverse effects on heart rhythm or blood pressure.
6. Do not use this product on your chest. Electric pulses may cause disturbances in your heart rhythm and could be harmful.
7. Do not use this product on your face or around the mouth.
8. Do not use this product in or around your groin area.
9. Do not place pads directly over the spine.
10. Do not use this product over open wounds, sores, rashes, or over swollen, irritated, infected skin, or over cancerous lesions.
11. Do not use while driving a vehicle, operating machinery, or during any activity in which electrical pulses may put you or others at risk of injury or death.
12. Do not use this device in the bath or shower.
13. Do not use this device while sleeping.
14. Do not use this device inside electromagnetic fields.
15. Do not use this unit or wires if they are cracked or damaged in any way or form. Do not use this device if you do not know the cause of your pain.
16. Keep this device out of reach of children.
PRECAUTIONS

1. The long-term effects of TENS and EMS therapies are not known. The statements contained in this manual and product packaging have not been evaluated by the FDA.
2. This product is not a substitute for pain medication or pain management therapies prescribed by your physician.
3. Use caution if using this device in areas of the body with limited sensation.
4. Replace massage pads if the adhesive gel becomes dry or if the pads don’t stick to your skin.
5. Massage pads should be used by only one person.
6. Wash your skin thoroughly to remove dirt, oils, lotions, or any other impurities before applying massage pads. Massage pads should only be applied to normal, intact, clean, healthy skin.
7. Dry, damaged, or worn-out massage pads may cause discomfort, irritation, or minor skin burns.
8. We recommend that you only use accessories sold by Enovative Technologies specifically for your device.
9. Using this device near short wave or microwave equipment may cause an unstable power output.
10. Keep your e-Pulse® device clean by wiping with a microfiber cloth. Do not use water.
11. Do not disassemble the unit. Doing so will void the warranty and may result in injury.
12. The size of the massage pads may affect the safety and effectiveness of your therapy. Clean and/or replace your massage pads as directed.

ADVERSE REACTIONS

1. If you experience adverse reactions, stop using this device and consult your physician.
2. People with sensitive skin are more prone to skin irritation when using this product.
3. You may experience sore or painful muscles if applying to one area of the body for extended periods of time.
**PRODUCT FEATURES**

Product Features:

- Digital control display with back-lit screen
- 6 massage modes combined into 6 unique therapies: Swedish, Acupuncture, Chopping, Cupping, Gua Sha, and Lomi Lomi
- 20 levels of intensity for soft and strong massages
- Dual outputs support up to four pads at once
- Adjustable timer (10-60 minutes)
- Extremely small dimensions; smaller than an iPod!
- Long-lasting rechargeable lithium battery
- Two-year limited warranty

OPERATING INSTRUCTIONS

STEP 1 - SNAP ELECTRODE WIRES to MASSAGE PADS

STEP 2 - REMOVE PLASTIC FILM from PADS

STEP 3 - PLACE PADS ON SKIN

Refer to the Pad Placement Guide for suggestions.

STEP 4 - CONNECT ELECTRODE WIRE to CHANNEL A

Repeat 1 - 4 for CHANNEL B

STEP 5 - TURN the unit ON

STEP 6 - PRESS (T) to CYCLE through THERAPIES

STEP 7 - PRESS the CENTER BUTTON to SELECT THERAPY

STEP 8 - PRESS - OR + to ADJUST INTENSITY

STEP 9 - PRESS the (D) BUTTON to ADJUST DURATION of the therapy

STEP 10 - Sit back, relax and enjoy!

*Refer to the Recommended Therapies guide for duration of therapy.
PAD PLACEMENT RECOMMENDATIONS

LOWER/MID/UPPER BACK
(Warning: Avoid placing pads directly on spine.)
1. Carefully place the massage pads across the targeted area such as your low/mid and/or upper back.
2. Apply to multiple areas simultaneously using four pads, or use 6 pads with the optional dual connector.
3. Place pads vertically when pain extends across a significant distance of your back.

LEGs
(Warning: Avoid placing pads close to your groin area.)
1. Carefully place the massage pads on either side or across the targeted area such as your ankle, across the length of your shin, around your calf, knee, hamstring, or across your thigh.
2. Apply to multiple areas simultaneously using four pads, or use 6 pads with the optional dual connector.
3. Place pads vertically when pain extends across a significant distance of your legs or in either side when applying to a smaller area.
NECK
(Warning: We recommend using small pads for effective results. Avoid placing close to your head, and the front and side of your neck.)

1. Carefully place two massage pads across the targeted area of your neck.
2. Place pads vertically when pain extends across a significant distance between your neck and shoulder.
3. Avoid placing pads too close to your head or near the esophagus or windpipe.

SHOULDERS
(Warning: Avoid placing pads close to your heart.)

1. Carefully place two massage pads horizontally across the area of your trapezoids.
2. Place pads in a parallel position for rotator cuff ailments.
ARMS AND HANDS
(Warning: For hands and wrist we recommend using small size pads or the Enovative Massage Gloves, which are sold separately.)

1. Carefully place the massage pads on either side or across the length of your forearm, around your elbow, or across your bicep and/or triceps.
2. Apply to multiple areas simultaneously using four pads, or use 6 pads with the optional dual connector.
3. Place pads vertically when pain extends across a significant distance of your arms or on either side when applying to a smaller area.

LIMITED WARRANTY

Your new e-Pulse® device comes with a 2-year manufacturer warranty. Please register your device and activate your 2-year warranty at www.epulemassage.com.

Protect your investment! You must register your device within 30 days of purchase. You will need your device’s serial number and your purchase receipt to complete your warranty registration.

This warranty guarantees the product to be free from defects in material and workmanship for a period of 2 years from the date of purchase. The warranty covers only the device and not any pads or accessories. The product warranty does not cover damage caused by misuse, abuse, accident or attachment of any unauthorized accessory, alteration to the product or any other conditions that are caused by improper or erroneous use of the device. The warranty is only valid if the product is purchased and used in the USA, Canada, or the United Kingdom. All warranty exchanges are subject to a $12.99 shipping & handling fee and require proof of purchase in the form of the original purchase receipt. Please contact us at (844) 437-8573 to process any warranty claims or if you have any questions about our warranty policy.
RECOMMENDED THERAPIES

Experiment with different therapies until you find those that work best for you. Some recommendations as follow:

LEGS

For common leg problems associated with sore and aching muscles due to strain from exercise or normal activities:

1. We recommend a therapy such as SWEDISH for a minimum of 10 MINUTES.
2. Another great therapy for leg pain is GUA SHA, and set the DURATION to 20 or 30 MINUTES.
3. If you are looking to facilitate or improve a group of muscles, use EMS therapy WORKOUT and set the DURATION to at least 10 MINUTES and increase the intensity to as high as you can tolerate.

SUGGESTED ACCESSORY: For large muscle groups, we suggest using the e-Pulse® Massage Brace (sold separately). For lower leg or foot pain, the e-Pulse® Massage Shoes and Massage Socks are an excellent alternative (both sold separately).

BACK AND WAIST

For common back problems associated with sore and aching muscles due to strain from exercise or normal activities on the upper back, lower back, or waist area:

1. We recommend a therapy such as SWEDISH and set the duration to at least 10 MINUTES.
2. Another great therapy for back pain is CHOPPPING and set the DURATION to 20 or 30 MINUTES.
3. If you are looking to facilitate or improve a group of muscles, use therapy CUPPING and set the DURATION to at least 10 MINUTES and increase the intensity to as high as you can tolerate.

SUGGESTED ACCESSORY: The e-Pulse® Workout Belt has been specifically designed for the lower back and abdominal muscles. For large muscle groups, we also suggest using the e-Pulse® Massage Brace (both sold separately or in bundles).

NECK

For neck problems associated with sore and aching neck muscles due to strain from exercise or normal activities:

1. We recommend a therapy such as CHOPPPING and set the DURATION to 20 or 30 MINUTES.
2. Another great therapy is LOMI LOMI and set the DURATION to 20 or 30 MINUTES.

SUGGESTED ACCESSORY: For neck pain, we suggest you use small massage pads which are ideal for smaller muscle groups.

SHOULDERS

For common shoulder problems associated with sore and aching muscles due to exercise or normal activities:

1. We recommend a therapy such as ACUPUNCTURE and set the DURATION to 10 MINUTES.
2. Another great therapy for shoulder pain is LOMI LOMI and set the DURATION to 20 or 30 MINUTES.
3. If you are looking to facilitate or improve a group of muscles, use therapy CUPPING and set the DURATION to at least 10 MINUTES and increase the intensity to as high as you can tolerate.

SUGGESTED ACCESSORY: The e-Pulse® Massage Brace (sold separately) is a versatile accessory that can be used to relieve shoulder pain as well as other parts of the body. It is specifically design to be used on medium to large muscle groups.

CLEANING AND STORAGE

CLEANING AND STORING THE PADS:

1. Turn your unit OFF.
2. DISCONNECT the electrode wires from the unit.
3. DISCONNECT the massage pads from the electrode wires.
4. Gently rub a few drops of water on the adhesive gel using your fingertips until all impurities have been rubbed away.
5. You can also wash the pads under slow running cold water for several seconds while gently rubbing the adhesive gel with your fingertips.
6. DO NOT use a sponge, cloth, detergents, chemicals, or soap.
7. We recommend washing the pads every 5 uses. Do not over-wash your pads.
8. Place the massage pads on the pad holder by sticking them to the sides of the holder and let dry completely.
9. DO NOT wipe with a tissue or cloth.
10. Do note keep in areas subject to direct sunlight, high or low temperatures, high humidity, near fire, or electricity.
11. If you follow these care instructions carefully, your pads should last for multiple uses.

CLEANING AND STORING THE UNIT:

1. Turn the unit OFF.
2. DISCONNECT the electrode wires from the unit.
3. Gently wipe the unit with a microfiber cloth.
4. DO NOT use water or chemicals on this device.
5. STORE the unit in a safe and convenient place away from the reach of children.
6. Do note keep in areas subject to direct sunlight, high or low temperatures, high humidity, near fire, or electricity.
7. DO NOT wrap the wires around the unit because it may damage the wires.
and set the DURATION to 20 or 30 MINUTES.

3. If you are looking to facilitate or improve a group of muscles, use therapy CUPPING and set the DURATION to at least 10 MINUTES and increase the intensity to as high as you can tolerate.

**SUGGESTED ACCESSORY:** The e-Pulse® Workout Belt has been specifically designed for the lower back and abdominal muscles. For large muscle groups, we also suggest using the e-Pulse® Massage Brace (both sold separately or in bundles).

**NECK**

For neck problems associated with sore and aching neck muscles due to strain from exercise or normal activities:

1. We recommend a therapy such as CHOPPING and set the DURATION to 20 or 30 MINUTES.

2. Another great therapy is LOMI LOMI and set the DURATION to 20 or 30 MINUTES.

**SUGGESTED ACCESSORY:** For neck pain, we suggest you use small massage pads which are ideal for smaller muscle groups.

**SHOULDER**

For common shoulder problems associated with sore and aching muscles due to exercise or normal activities:

1. We recommend a therapy such as ACUPUNCTURE and set the DURATION to 10 MINUTES.
2. Another great therapy for shoulder pain is LOMI LOMI and set the DURATION to 20 or 30 MINUTES.

3. If you are looking to facilitate or improve a group of muscles, use therapy CUPPING and set the DURATION to at least 10 MINUTES and increase the intensity to as high as you can tolerate.

**ARMS**

For common arm problems associated with sore and aching muscles:

1. We recommend a therapy such as GUA SHA and set the DURATION to 10 MINUTES.

2. Another great therapy for arm pain is SWEDISH and set the DURATION to 20 or 30 MINUTES.

3. If you are looking to facilitate or improve a group of muscles, use therapy CUPPING and set the DURATION to at least 10 MINUTES and increase the intensity to as high as you can tolerate.

**SUGGESTED ACCESSORY: The e-Pulse® Massage Brace (sold separately) is a versatile accessory that can be used to relieve shoulder pain as well as other parts of the body. It is specifically design to be used on medium to large muscle groups.**

AVAILABLE ACCESSORIES (Sold separately or in bundles.)

WORKOUT BELT

The e-Pulse® Workout Belt can provide relief to common problems associated with sore and aching muscles on the back and waist area.

1. Snap the Jumbo massage pads to the connectors located on the inside of the workout belt.
2. Pull out the wire on the front of the belt and connect to your device.
3. Carefully wrap the e-Pulse® Workout Belt around your torso with the inside of the belt facing your lower back or abs, depending on your therapy preference. Fasten the Velcro ends together.
4. Turn ON your device and press the (T) button to start selecting your therapy.
5. For lower back pain, we recommend a therapy such as SWEDISH and set the duration to 10 minutes. Another great therapy is CHOPPING, and the...
recommended duration of treatment is at least 20 to 30 MINUTES.

6. If you are looking to facilitate or improve a group of muscles, use therapy CUPPING and set the DURATION to at least 10 MINUTES and increase the intensity to as high as you can tolerate.

MASSAGE SHOES
The e-Pulse® Massage Shoes can provide relief to common aches and soreness in the lower extremities.

1. Connect the electrode wires to the Massage Shoes
2. Connect the wires to your device and turn ON.
3. Press the (T) button to cycle through and select your therapy.
4. For foot soreness and aches, we recommend a therapy such as ACUPUNCTURE and the recommended DURATION of treatment is at least 20 to 30 MINUTES. Another great therapy is LOMI LOMI and the recommended DURATION of therapy is 20 to 30 MINUTES.

MASSAGE SOCKS
The e-Pulse® Massage Socks can provide relief to common aches and soreness in the lower extremities.
1. Connect the electrode wires to the Massage Socks connectors.
2. Connect the wires to your device and turn ON.
3. Press the (T) button to cycle through and select your therapy.
4. For lower leg aches, we recommend a therapy such as GUA SHA and the recommended DURATION of treatment is at least 20 to 30 MINUTES. Another great therapy is LOMI LOMI and the recommended DURATION of therapy is 20 to 30 MINUTES.
2. Connect the wires to your device and turn ON.

3. Turn ON your device and press the \((T)\) button to cycle through and select your therapy.

4. For lower leg aches, we recommend a therapy such as GUA SHA and the recommended DURATION of treatment is at least 20 to 30 MINUTES. Another great therapy is LOMI LOMI and the recommended DURATION of therapy is 20 to 30 MINUTES.

**MASSAGE GLOVES**

The e-Pulse® Massage Gloves can provide relief to common aches and soreness in the upper extremities.

1. To start your therapy, make sure you wash and dry your hands and wrists thoroughly to remove oils, lotions, dirt or any topical impurities.

2. Connect the electrode wires to the Massage Gloves connectors.

3. Put on the Gloves and turn ON your device.

4. Press the \((T)\) button to cycle through and select your therapy.
5. For aches, we recommend a therapy such as ACUPUNCTURE and set the DURATION to 10 MINUTES. Another great therapy for hand pain is CHOPPING and the recommend DURATION of therapy is 20 to 30 MINUTES.

**MASSAGE BRACE**

The e-Pulse® Massage Brace can provide relief to common problems associated with sore and aching muscles in a number of different areas of the body.

1. Connect the electrode wires to the brace connectors.
2. Connect the wires to your device and turn ON.
3. If desired, spray a small amount of the e-Pulse® Conductive Spray (sold separately) on the brace.
4. Carefully wrap the Massage Brace around your waist, your shoulders, arms, or legs with the inside of the brace covering the targeted area, then fasten the Velcro ends together.
5. Press the (T) button to cycle through and select your therapy.
6. For general aches and soreness, we recommend a therapy such as CUPPING and set the DURATION to 10 MINUTES. Another great therapy is LOMI LOMI, and the recommended DURATION of therapy is at least 20 to 30 MINUTES.

• Massage pads are too close together                                                                                                                                                           | • Decrease intensity  
• Adjust placement of massage pad(s) (Refer to our Placement Guide for suggestions)                                                                                                                 |
| **Skin turns red and/or irritated** | • Intensity too high  
• Damaged massage pad and/or electrode wire  
• Massage pad is dry, dirty, or does not stick                                                                                                    | • Replace massage pad(s)  
• Clean skin and massage pad(s) per instructions                                                                                                                                                    |
| **Therapy does not relieve pain** | • Massage pads are too far apart  
• Intensity is too low  
• Skin not clean  
• You may be suffering from a chronic or serious condition                                                                                               | • Adjust placement of massage pad(s) (Refer to our Placement Guide for suggestions)  
• Increase intensity  
• Clean skin and massage pad(s) per instructions  
• Consult your physician                                                                                                                                          |
| **Screen does not turn on**   | • Dead battery                                                                                                                                                                                              | • Recharge battery                                                                                                                                                                                     |
